

WHD7010 HD STB

Product Overview

WHD7010 HD STB Overview

WHD7010 is Wellav's latest HD set top box (receiver) that helps operators deliver up to 1080p high definition video and stereo audio to their subscribers with the best entertaining experience through HDMI interface. It can not only greatly improve subscribers' satisfaction but also reduce operators' delivery cost with its advanced technology in both hardware and software. Wellav can provide different options according to different operator's requirement.
